TruckCraft Warranty Certificate

WARRANTY

TRUCKCRAFT CORPORATION WARRANTS EACH TC-202 ULTRA/COMBO BODY TO BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP FOR A PERIOD OF 1-YEAR FROM THE DATE OF INITIAL SALE. WE WARRANT OUR FACTORY-APPLIED POWDER COAT FINISH AGAINST MATERIAL DEFECTS FOR A 5-YEAR PERIOD OR FROM THE DATE OF PURCHASE. THE TC-121 INSERT WILL BE WARRANT FOR 3 YEARS. WE WARRANT OUR PRODUCTS TO BE FREE OF CORROSION PERFORATION FOR THE LIFE OF THE WARRANTY. THIS WARRANTY APPLIES ONLY WHEN THE PRODUCT IS PROPERLY INSTALLED BY A (TRUCKCRAFT) DEALER, IS PROPERLY MAINTAINED AND USED FOR THE PROPOSE FOR WHICH IT WAS DESIGNED. THE WARRANTY PERIOD BEGINS ON THE DATE OF PURCHASE BY THE FIRST OWNER/USER OR ONE YEAR FROM THE DATE THE PRODUCT WAS SHIPPED FROM (TRUCKCRAFT), WHICHEVER COMES FIRST.

NOTE: To activate the Warranty on your new TC-202 go online to www.truckcraft.com or contact your nearest TruckCraft dealer.

WHO BENEFITS FROM THIS WARRANTY?

TruckCraft obligation under this warranty applies to the first purchaser of the product.

HOW IS A WARRANTY CLAIM HANDLED?

The purchaser shall immediately notify the local Authorized Distributor or TruckCraft (In Writing) of any claim under this warranty. The information should include the model and serial number. A detailed description of the alleged defect and photographs of the entire unit including shots of the specified defect. All repairs must be authorized be TruckCraft prior to any work being completed. If after inspection TruckCraft determines the product is defective in material or workmanship as claimed. TruckCraft shall have the option to repair the defect TruckCraft’s option. TruckCraft shall not be liable for any rental reimbursement, loss of vehicle use, inconvenience, mileage, travel expense, storage, lost time/pay, etc.
EXCLUSIONS TO WARRANTY

1. Accessories or services not by TruckCraft Corporation or damages/corrosions caused by these accessories or services. This includes optional parts, after-market products, components, installation, finish painting, lettering, wiring or modifications.

2. Specific corrosion perforation and powder coat warranty exclusions:
   a. Products which may have been used to carry corrosive materials, where such materials may result in corrosion or rust-through perforation.
      i. Products purchased with optional bare surface and installed by the original owner.
      ii. Products being warranted under the corrosion perforation warranty must have a perforation warranty.
      iii. Corrosion on a powder-coated surface is not considered a corrosion perforation warranty.
      iv. Damage or corrosion caused by airborne fallout, salt from the sea air, salt or other materials used to control road conditions, chemicals, tree sap, stones, hail, earthquake, water or flood windstorm, lighting or the application of chemicals or sealants subsequent to manufacture are not covered.
      v. Normal wear-and-tear on the product is not covered.
      vi. Damage due to accident, misuse, abuse or alteration of the product.

3. Fatigue cracking of the body structure caused by improper mounting, overloading, severe off-road applications, twisting loads influenced by cranes or aerial devices are not covered.

DISCLAIMERS

TruckCraft Corporation warrants its products only as stated in the Warranty. TruckCraft makes no other warranties, express or implied, and disclaims all other warranties, including any implied warranty of merchantability or fitness for a particular purpose. TruckCraft’s obligations are limited to those expressed in this warranty and TruckCraft shall not be liable to the purchaser or any third party for any direct or indirect, incidental or consequential damage or loss. Some states do not allow limitations on how long an implied warranty lasts or exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state. If the product is improperly installed, modified, misused, damaged or otherwise tampered with, the foregoing warranty shall lapse and become null and void. This warranty shall be enforced and construed in accordance with the laws of the state of Pennsylvania. No person is authorized to modify or add to the foregoing Warranty.
TruckCraft Warranty Registration

Ultra / Combo Body Options

The TC-202 was designed for pickups with single rear wheel and a 56CA capable to carry tools necessary for your job and have the capability to have a dump truck also. The weight of the unit is 1,045 lbs., which includes the TC-121 dump insert. The aluminum dump insert has a capacity of 7,000 lb. and a capacity of 2.5 cu.yds. water level. The insert has a weight of 478 lbs. The main body configuration is a B-B body style, which will have a pass-through box at the top. The body is made of 100% aluminum and the floor is made with 6061-T6 extruded planks for maximum strength & rigidity. The storage area is 35 cu.ft. of secure storage per side with an overall size of 13.5” Deep x 40”H x 98” L. The body comes with a smooth aluminum cabinet top as standard.

All compartments have a standard double panel all aluminum doors which are powder coated white and 2 shelves with dividers included. We can also delete powder coating and supply to the customer a color match to their vehicle at an additional cost. Each vertical door has a gas spring and the horizontal doors are supplied with detachable cables. All the compartment door will have an Black & Chrome whale-tail twist lock latch with roller & compression action that will seal against an automotive D-style bulb style seal.

Each kit will include required (FMVSS LED) lighting with the factory harness. Attached at the rear is one hand top drop & slam-shut tailgate that can be removed if necessary. A set of wheel well panels will be supplied to match whatever the configuration of fuel fill is needed. A set fender flares will also be attached for additional protection of road spray.

An all-aluminum 6” bumper with 1/8” aluminum diamond plate is included with the body.
Ultra/Combo Installation Kits

We have designed Installation kits to fit all three domestic truck manufacturers chassis (FORD, GM & RAM). This makes for a custom installation of the TC-202 and the dump insert. Listed below are installation and mounting kits for the most popular domestic chassis.

General Maintenance Instructions

ALWAYS wash your service body after any after major storm in the winter months to remove the road chemicals and salt. This will help in keeping your unit from being stained. If possible, a good wax should be used on your service body to help keep it looking good and protect the aluminum finish.

ALWAYS lubricate hinges and rotating parts with a light machine oil at least once a year. This will insure they will work properly.

ALWAYS check the powder coated doors to see if they were damaged or chipped. If they were, it is recommended to repair these areas to prevent corrosion from lifting the painted or powder coated parts.

ALWAYS check the door seals to ensure that they have not been damaged and are still adhered to box for a water tight seal. To clean them wipe them down with mild soapy water and dry them off. If the seal has detached itself from the box you will need to reattach it with a 3M double sided tape or replace with a new seal.

For units with Keyless Entry, NEVER leave off the electrical cover for units with Keyless Entry, located on the passenger side front compartment and each door lock cover. Check to make sure that electrical connectors are still tight.

ALWAYS check the rotary latches to make sure that they are working correctly. At least every 4 to 6 months you should check and see if they need lubrication to the moving parts. The doors can be made tighter or looser against the seal by adjusting the roller on the latch. Loosen the bolt holding the roller and move it in or out for proper fit and retighten it.
