TruckCraft Warranty Certificate

WARRANTY

TRUCKCRAFT CORPORATION WARRANTS EACH TC-265 LANCER SERVICE BODY TO BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP FOR A PERIOD OF FIVE YEARS FROM THE DATE OF INITIAL SALE. WE WARRANT OUR FACTORY-APPLIED POWDER COAT FINISH AGAINST MATERIAL DEFECTS FOR A 5-YEAR PERIOD OR FROM THE DATE OF PURCHASE. WE WARRANT OUR PRODUCTS TO BE FREE OF CORROSION PREFORATION FOR THE LIFE OF THE WARRANTY. THIS WARRANTY APPLIES ONLY WHEN THE PRODUCT IS PROPERLY INSTALLED BY A (TRUCKCRAFT) DEALER, IS PROPERLY MAINTAINED AND USED FOR THE PROPOSE FOR WHICH IT WAS DESIGNED. THE WARRANTY PERIOD BEGINS ON THE DATE OF PURCHASE BY THE FIRST OWNER/USER OR ONE YEAR FROM THE DATE THE PRODUCT WAS SHIPPED FROM (TRUCKCRAFT), WHICHEVER COMES FIRST.

NOTE: To activate the Warranty on your new TC-265 go online to www.truckcraft.com or contact your nearest TruckCraft dealer.

WHO BENEFITS FROM THIS WARRANTY?

TruckCraft obligation under this warranty applies to the first purchaser of the product.

HOW IS A WARRANTY CLAIM HANDLED?

The purchaser shall immediately notify the local Authorized Distributor or TruckCraft (In Writing) of any claim under this warranty. The information should include the model and serial number. A detailed description of the alleged defect and photographs of the entire unit including shots of the specified defect. All repairs must be authorized be TruckCraft prior to any work being completed. If after inspection TruckCraft determines the product is defective in material or workmanship as claimed. TruckCraft shall have the option to repair the defect TruckCraft’s option. TruckCraft shall not be liable for any rental reimbursement, loss of vehicle use, inconvenience, mileage, travel expense, storage, lost time/pay, etc.
EXCLUSIONS TO WARRANTY

1. Accessories or services not by TruckCraft Corporation or damages/corrosions caused by these accessories or services. This includes optional parts, after-market products, components, installation, finish painting, lettering, wiring or modifications.

2. Specific corrosion perforation and powder coat warranty exclusions:
   a. Products which may have been used to carry corrosive materials, where such materials may result in corrosion or rust-through perforation.
      i. Products purchased with optional bare surface and installed by the original owner.
      ii. Products being warranted under the corrosion perforation warranty must have a perforation warranty.
      iii. Corrosion on a powder-coated surface is not considered a corrosion perforation warranty.
      iv. Damage or corrosion caused by airborne fallout, salt from the sea air, salt or other materials used to control road conditions, chemicals, tree sap, stones, hail, earthquake, water or flood windstorm, lighting or the application of chemicals or sealants subsequent to manufacture are not covered.
      v. Normal wear-and tear on the product is not covered.
      vi. Damage due to accident, misuse, abuse or alteration of the product.

3. Fatigue cracking of the body structure caused by improper mounting, overloading, severe off-road applications, twisting loads influenced by cranes or aerial devices are not covered.

DISCLAIMERS
TruckCraft Corporation warrants its products only as stated in the Warranty. TruckCraft makes no other warranties, express or implied, and disclaims all other warranties, including any implied warranty of merchantability or fitness for a particular purpose. TruckCraft’s obligations are limited to those expressed in this warranty and TruckCraft shall not be liable to the purchaser or any third party for any direct or indirect, incidental or consequential damage or loss. Some states do not allow limitations on how long an implied warranty lasts or exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state. If the product is improperly installed, modified, misused, damaged or otherwise tampered with, the foregoing warranty shall lapse and become null and void. This warranty shall be enforced and construed in accordance with the laws of the state of Pennsylvania. No person is authorized to modify or add to the foregoing Warranty.
TruckCraft Warranty Registration

Thank you for purchasing a TruckCraft Service Dumper. We appreciate your business and trust that your Service Body will give you many years of outstanding service. To provide you with the superior support that you deserve, we request that you register your warranty with us.

To register your warranty, please complete this form and mail or fax it to TruckCraft within 30 days of purchase.

Service Body Options

The **TC-265** was designed to give the customer a wide range of body options for the **DRW Cab Chassis** with a **60CA** and with a weight of **896 lbs**. The three main body configurations are, **A/B**, **A/A** & **BB** bodies which will give the customer many options to meet his needs. All the service bodies are made of 100% aluminum and the floor is made with **6061-T6** extruded planks for maximum strength & rigidity. With the Standard (**A/B**) configuration there is **38.3 cu.ft.** of secure storage per side and a floor space of **49” W x 107” L**. All service bodies come with a **1/8”** diamond plate cabinet top standard but a smooth top is also available.

All compartments have a standard double panel all aluminum door which is powder-coated white and **6** shelves with dividers are included. We can also delete powder coating supply to the customer a color match to their vehicle at an additional cost. Each vertical door has a gas spring and the horizontal doors are supplied with detachable cables. All the compartment door will have an Black & Chrome whale-tail twist lock latch with roller & compression action that will seal against an automotive D-style bulb style seal. Attached at the rear is one hand top drop & slam-shut tailgate that can be removed if necessary. A set of wheel-well panels will be supplied to match whatever the configuration of fuel fill is needed. A set fender flares will also be attached for additional protection of road spray.

There are two all-aluminum bumper styles which is an **8”** bumper & a **11”** V-Notch style with **1/8”** aluminum diamond plate on both. We also supply a Keyless Entry W/LED strip lighting for all the body configurations. Shown below are the three body configurations.

Listed below is the three body configurations, **A/B** (**D1-07599**), **A/A** (**D1-07975**) & **B/B** (**D1-07976**).
B/B BODY (D1-07976)
Service Body Mounting / Installation Kits

We have designed mounting kits for the A/B, A/A & B/B body configurations to fit on the three main truck manufacturers chassis (FORD, GM & RAM). Also, we have mounting kits to fit up to all three manufacturers for both bumpers. This will give our distributor’s an easier method of installing our bodies.

Listed below is the Mounting and Bumper Kits for the TC-265 Service Bodies.

OPTIONAL: KEYLESS ENTRY & LED LIGHTING

Description: Each A-B, A-A and B-B body configuration has the option to have a Keyless Entry System & LED lights installed. All the body configurations are already setup to accept Keyless Entry & LED lighting. When the order is placed, and the option is asked for, we will install and test each unit at our facility to ensure that they are working correctly.

NOTE: TruckCraft also offers a field installation kit for Keyless Entry & Lighting on the TC-260 service body. A six-lock kit (D2-07790) is available for the A-A Body configuration. The A-B configuration requires a seven-lock kit (D2-07791) and the B-B configuration requires an eight-lock kit (D2-07800). The following drawings refer to the installation of the Keyless/Electrical wiring kits on the appropriate body configurations.

(D1-07927) Keyless/Electrical Wiring Installation and one of the appropriate body configuration drawings (D2-08423, D2-08424 & D2-08425) will also be sent out for field installation.
Keyless/Electrical Wiring Kit (D2-07790) 6 Locks For A-A Bodies

General Maintenance Instructions

ALWAYS wash your service body after any after major storm in the winter months to remove the road chemicals and salt. This will help in keeping your unit from being stained. If possible, a good wax should be used on your service body to help keep it looking good and protect the aluminum finish.

ALWAYS lubricate hinges and rotating parts with a light machine oil at least once a year. This will insure they will work properly.

ALWAYS check the powder coated doors to see if they were damaged or chipped. If they were, it is recommended to repair these areas to prevent corrosion from lifting the painted or powder coated parts.

ALWAYS check the door seals to ensure that they have not been damaged and are still adhered to box for a water tight seal. To clean them wipe them down with mild soapy water and dry them off. If the seal has detached itself from the box you will need to reattach it with a 3M double sided tape or replace with a new seal.

For units with Keyless Entry, NEVER leave off the electrical cover for units with Keyless Entry, located on the passenger side front compartment and each door lock cover. Check to make sure that electrical connectors are still tight.

ALWAYS check the rotary latches to make sure that they are working correctly. At least every 4 to 6 months you should check and see if they need lubrication to the moving parts. The doors can be made tighter or looser against the seal be adjusting the roller on the latch. Loosen the bolt holding the roller and move it in or out for proper fit and retighten it.
